

Name: Oraye, Louise Justine J.

Subject: 6ADET

Block Section: CS - 301

Date: September 18, 2026

Color Palette

Role	Hex value	Used for
Primary	#5D6D0A	main buttons, active states (Olive Green)
onPrimary	#FFFFFF	text and icons on primary
Secondary	#644619	highlights, secondary actions (Cookie Brown)
onSecondary	#FFFFFF	text and icons on secondary
surface	#FFFFFF	cards, sheets, dialogs, order, and expense containers (White)
onSurface	#41403E	body text (Dark Gray)
error	#BA1A1A	validation, destructive actions (Standard Material error)

Contrast: Handled automatically by Material 3 ColorScheme.fromSeed (using your dark gray body text #41403E on your white/cream background #FFFFFF), which ensures accessibility standards are met out of the box.

Dark mode: No.

Type Scale

1. **Darumadrop One** - Logo and branding
2. **Inter** - All UI text

Style	Flutter slot	Size (sp)	Weight	Used for
Heading	headlineSmall	24 sp	Bold	Screen titles (Dashboard, Orders, Expenses, Financials)
Body	bodyMedium	16 sp	Regular	Form fields, order details, expense details, lists
Caption	labelSmall	12 sp	Regular	Dates, payment status, hints, labels, notes

HELLO WORLD!

HELLO WORLD!

HELLO WORLD!

24 sp Bold format

16 sp Regular format

12 sp Regular format

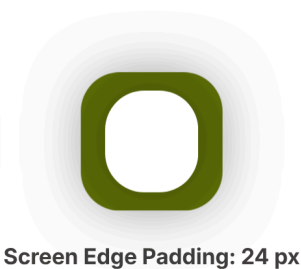

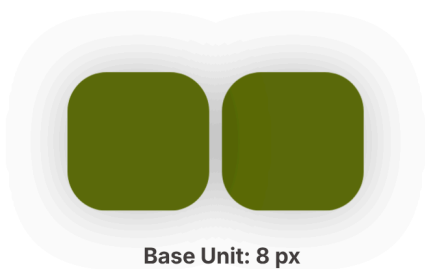

Spacing Rule

Base Unit: AppSpacing.sm (8 px)

Screen edge padding: AppSpacing.lg (24 px)

Gap between list items: 8 px (AppSpacing.sm)

Gap between sections: 16px (AppSpacing.md)

Gap Between List Items: 8 px
Gap Between List Items: 8 px

Gap Between Sections: 16 px

Gap Between Sections: 16 px

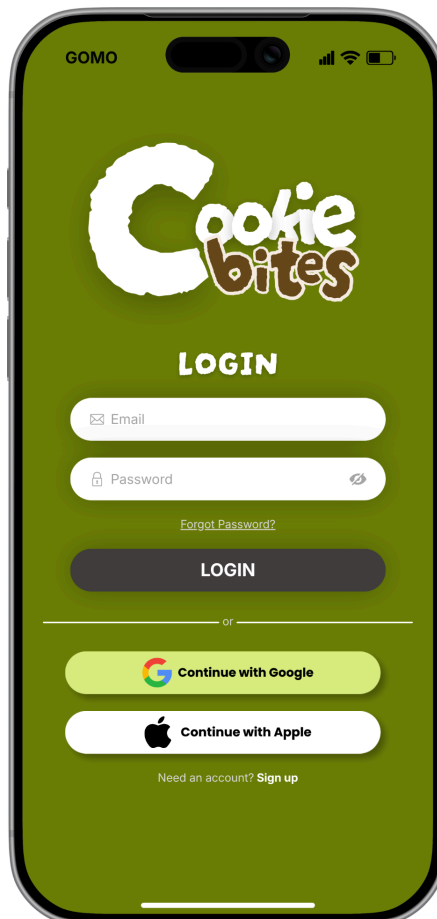

Reusable Components

Component	File	Constructor Parameter	Appears on
AppHeader	lib/widgets/user_header.dart	String name, String role	Dashboard, Orders, Expenses, Financials
PrimaryButton	lib/widgets/primary_button.dart	String label, VoidCallback? onPressed	Login, New Order, New Expense
Navigation Bar	lib/widgets/app_nav_bar.dart	int currentIndex, ValueChanged<int> onTap	Order Board, Order Entry, Expenses Log, Financial
OrderCard	lib/widgets/order_card.dart	Order order, VoidCallback onTap	Orders Screen, Dashboard
ExpenseCard	lib/widgets/expense_card.dart	Expense expense, VoidCallback onDelete	Expenses Screen
SummaryCard	lib/widgets/summary_card.dart	String title, String value, Color color	Financial Summary Dashboard, Expenses
InputField	lib/widgets/app_text_field.dart	String label, TextEditingController controller, String hintText	Login, New Order, New Expense
Search Bar	lib/widgets/search_bar.dart	TextEditingController controller, ValueChanged<String> onChanged	Orders Screen
Category Filter Chips	lib/widgets/category_chips.dart	List<String> categories,	Orders Screen

	ps.dart	String selected, ValueChanged<String> onSelected	
Product Quantity Selector	lib/widgets/quantity_selector.dart	int quantity, VoidCallback onIncrement, VoidCallback onDecrement	New Order Entry Form

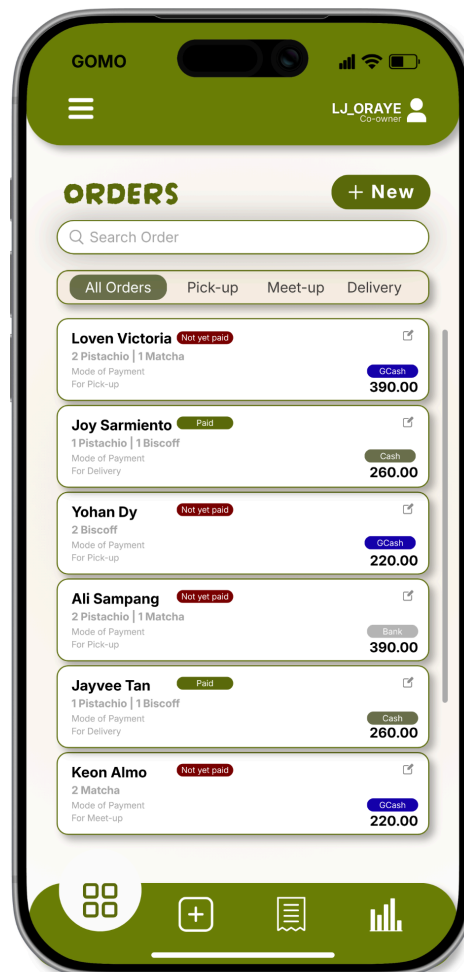

1. Login Screen

- Primary Button
 - File: lib/widgets/primary_button.dart
 - Constructor Parameters: String label, VoidCallback? onPressed
- Input Field
 - File: lib/widgets/app_text_field.dart
 - Constructor Parameters: String label, TextEditingController controller, bool obscureText

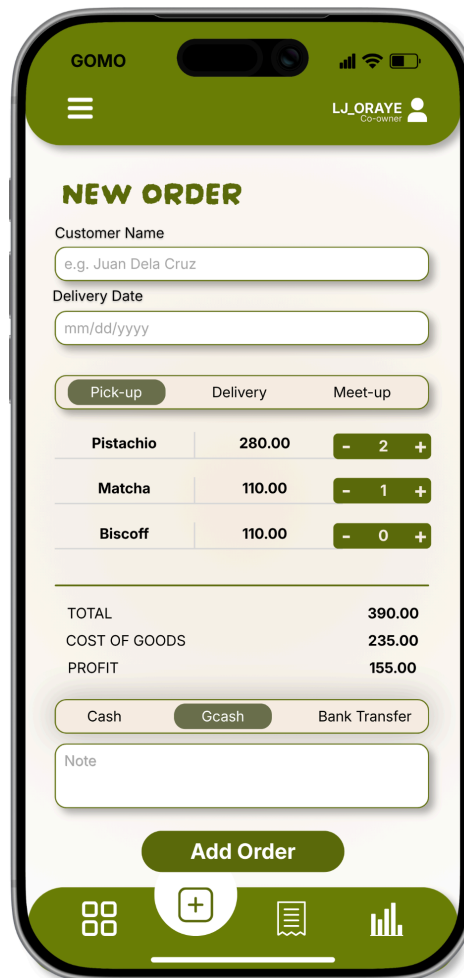

2. Order Board

- App Header / UserHeader
 - File: lib/widgets/user_header.dart
 - Constructor Parameters: String name, String role
- Search Bar
 - File: lib/widgets/search_bar.dart
 - Constructor Parameters: TextEditingController controller, ValueChanged<String> onChanged
- Category Filter Chips
 - File: lib/widgets/category_chips.dart
 - Constructor Parameters: List<String> categories, String selected, ValueChanged<String> onSelected
- Order Card
 - File: lib/widgets/order_card.dart
 - Constructor Parameters: Order order, VoidCallback onTap
- Navigation Bar
 - File: lib/widgets/app_nav_bar.dart
 - Constructor Parameters: int currentIndex, ValueChanged<int> onTap

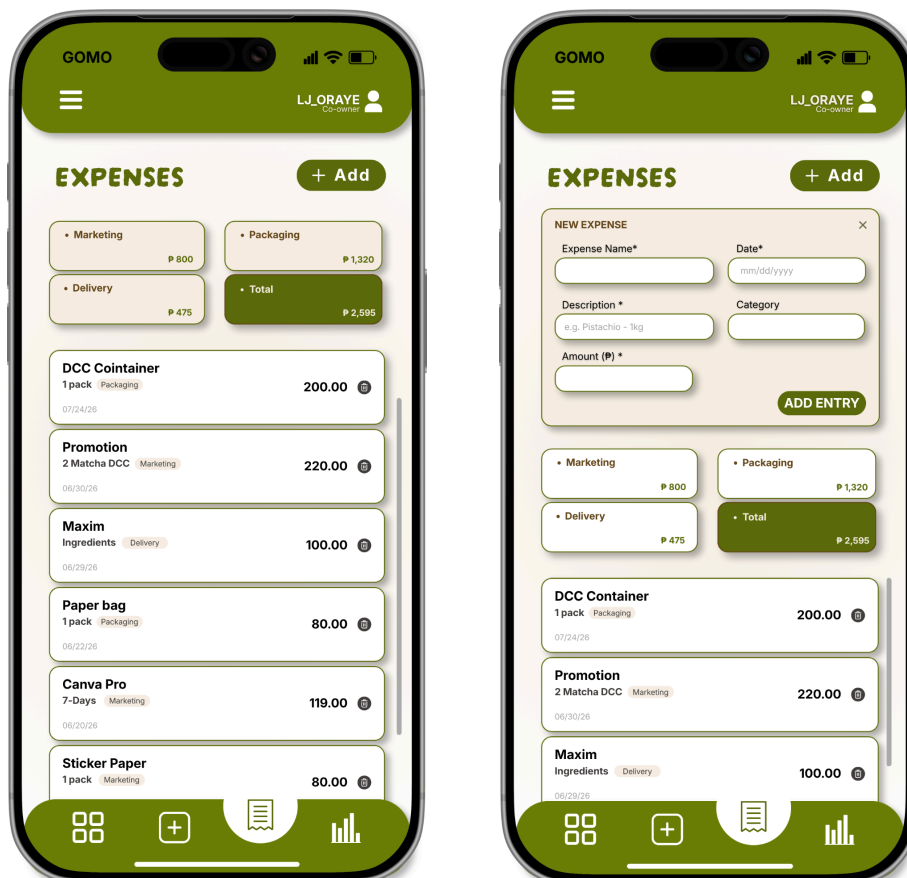

3. Order Entry Form

- App Header / UserHeader
 - File: lib/widgets/user_header.dart
 - Constructor Parameters: String name, String role
- Input Field
 - File: lib/widgets/app_text_field.dart
 - Constructor Parameters: String label, TextEditingController controller, String hintText
- Product Quantity Selector
 - File: lib/widgets/quantity_selector.dart
 - Constructor Parameters: int quantity, VoidCallback onIncrement, VoidCallback onDecrement
- Primary Button
 - File: lib/widgets/primary_button.dart
 - Constructor Parameters: String label, VoidCallback? onPressed
- Navigation Bar
 - File: lib/widgets/app_nav_bar.dart
 - Constructor Parameters: int currentIndex, ValueChanged<int> onTap

4. Expenses Screen (++)Add Expenses)

- App Header / UserHeader
 - File: lib/widgets/user_header.dart
 - Constructor Parameters: String name, String role
- Primary Button (Used for "+ Add")
 - File: lib/widgets/primary_button.dart
 - Constructor Parameters: String label, VoidCallback? onPressed
- Summary Card (Used for Marketing, Packaging, Delivery, Total blocks)
 - File: lib/widgets/summary_card.dart
 - Constructor Parameters: String title, String value, Color color
- Expense Card
 - File: lib/widgets/expense_card.dart
 - Constructor Parameters: Expense expense, VoidCallback onDelete
- Input Field (Used inside the Add Expense dialog popup)
 - File: lib/widgets/app_text_field.dart
 - Constructor Parameters: String label, TextEditingController controller, String hintText
- Navigation Bar
 - File: lib/widgets/app_nav_bar.dart
 - Constructor Parameters: int currentIndex, ValueChanged<int> onTap

5. Financials Dashboard Screen

- App Header / UserHeader
 - File: lib/widgets/user_header.dart
 - Constructor Parameters: String name, String role
- Summary Card (Used for Net Profit, Total/Paid/Unpaid order boxes, and Top Ordered items)
 - File: lib/widgets/summary_card.dart
 - Constructor Parameters: String title, String value, Color color
- Navigation Bar
 - File: lib/widgets/app_nav_bar.dart
 - Constructor Parameters: int currentIndex, ValueChanged<int> onTap

What changed, and why

Element	Prelim said	Now says	Why it changed?
Core Features Color Palette	6 hand-picked colors	#5D6D0A, #644619, #FFFFFF, #F6EEE2, and #41403E	Refined exact hex values and roles (Primary, Secondary, Background, Surface, Text) to ensure clear contrast across screens.
Reusable Components	Basic widget list	Detailed inventory including App Header, Primary Button, Navigation Bar, Cards, Input Fields, Search Bar, Filter Chips, and Quantity Selector	Expanded to comprehensively map every repeating component across all five app screens to support development implementation.
